

MARACRAFT

an ETG Brand

BIOFUELS

BIOFUEL TECHNOLOGY PROGRAM

Alternative Energy Generation

- History of fossil fuels
- Environmental concerns
- Electric grid
- Alternative energy sources

Energy and Power

- Types of energy
- Potential and Kinetic energy
- Power math
- Transportation fuels

Biomass and Biofuels

- Biomass and biofuels basics
- Types of energy produced
- Pyrolysis
- Gasification
- Anaerobic Digestion
- Ethanol, Biodiesel & green diesel
- Limitations to overcome

Small Scale Bioenergy Production

- Wood gas generators
- Backyard ethanol
- Backyard Biodiesel
- Safety and quality control
- By-product management

Reinforced with Hands-on Labs

**HANDS-ON
