

MEGATECH[®]

Megatech Corporation

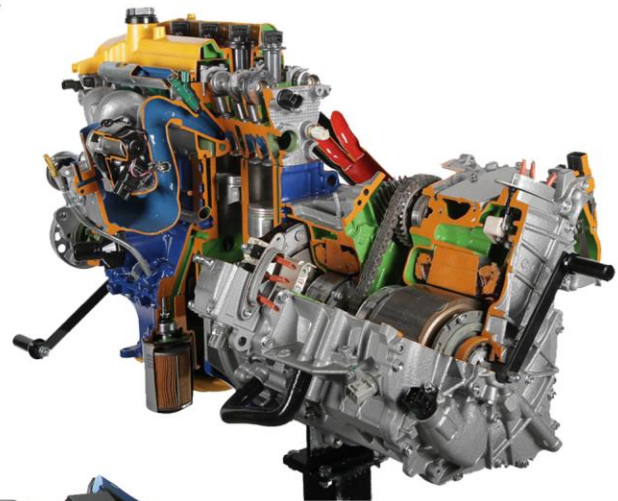

HYBRID VEHICLE TRAINING PROGRAM

Megatech is a world leader in construction of hybrid, and alternative fuels teaching systems. Our products have been built and designed with both the student and teacher in mind. Trainers that bring theory to life (cutaways and certain mock-ups) while creating challenging faults that allow advanced diagnostics (clip cars and bench-top trainers).

A career path in alternative energy is available through our alternative energy product line, and a program can expand in several pathways. Students will be shown three pathway options besides automotive for energy, residential/commercial installations, alt. fuels technician, and energy conversion field employment.

The **Megatech Training Products** includes the following components:

- MEG007 Hybrid - Custom built clip cars from a range of years
- MEGLOC-HYB Hybrid theory and operational panel
- MEG-150 Alternative Fueled Engine
- MEG-STAR Electric Vehicle
- MEGCUT-MG1/MG2
- MEGART-PRIUS
- MEGART-LPG
- MEG-310 Biodiesel
- MEG-SV HVAC
